

Top practices that lead to student success

1. How we use our time shows what we value (cell phones, Internet, etc.);
2. It's not easy, but you can be successful if you chose;
3. If you get behind, you will likely never catch up;
4. If you are repeating the course and do the same things you did before, do not be surprised if you have the same results;
5. Study the material thoroughly before every class;

6. You must study all the assigned material;
7. Teamwork happens (study groups);
8. Open your mind to new ideas;
9. Class attendance does not guarantee academic success;
10. I can't learn you the material.
